

Corin Holloway - VP Activities Manifesto

Improve website

Society memberships:

- ★ -Box office memberships
 - Let people buy society memberships at SUSU reception as well as online if they don't like paying by card.
- ★ Exportable member lists
 - (If GDPR compliant) Make society memberships exportable, so you can put members in an external mailing list.
- ★ New member notifications
 - Options for new member notifications, the automatic "you have joined this society" email to be modifiable by the society and an optional "a new member has joined" notification.
- ★ Ex-student memberships
 - Try to make getting membership easier for people who want to continue societies when they graduate

Volunteering:

- ★ Add a volunteering section to the website. Include:
 - A link to the strive e-badges volunteer recognition blog
 - An explanation of how to access the volunteering bank
 - Descriptions and links to all the volunteering societies within SUSU
 - Links to volunteering opportunities within UoS and community (big job)

Societies

- ★ Try to get more people engaged in societies.
 - Find advertising space from Uni for society events. EG: put list of society activities in the halls welcome packs.
 - Try to get some obvious poster/noticeboard space in Hartley
 - Get You Are More Than (exams...) to do more things with societies
 - Empower societies to run taster sessions.
- ★ More society storage
 - Put shelves/lockers in cage, so more stuff can be stored in the same space
- ★ Freshers' events calendar
 - Create schedule of society activities in first couple of weeks (and continuously if it's feasible) for freshers to try stuff out and help them join societies.
- ★ Freedom
 - Not meddle too much in society affairs. Oppose measures which restrict society freedom.
- ★ Fair funding
 - Yeah.

Volunteering & Fundraising

- ★ Evaluate and advertise the Strive volunteer recognition scheme
- ★ Volunteer discounts
 - I submitted a You Make Change about giving volunteers discounts at the cafe and bridge and current sabbs are trying to make it happen. I'll make sure it continues.
- ★ Be friends with and advertise RAG and other volunteer societies.
- ★ Arrange more events like the Excellence Volunteering Awards for volunteers to get to know each other and be rewarded.

General

- ★ **I want to** listen to people's ideas - either through FB, email or You Make Change... If you have things you want to happen with societies, contact me!
- ★ Sabbatical roles have changed this year and environmental issues are now under the president's role. I love the environment, so will make sure they remember.
- ★ Oppose any funding cuts to SUSU from the University.
- ★ Help entrepreneurs. Connect them to groups like Future Worlds, Fish on Toast, Social Impact Lab, SUSU Enterprise Fund...

Experience

- ★ SUSU Clubs and Societies Officer
 - Experience attending/chairing meetings about societies & democracy as well and communicating between societies and SUSU. I know what's feasible and am fairly sure I can accomplish all this.
- ★ Electronic engineering student, so know how websites work.
- ★ I'm on the committee for 6 different societies and a member of 19 more.
- ★ I spend about twice as long volunteering as I do in lectures.
- ★ Made SUSU changes through You Make Change. EG: bike fixing equipment in SUSU.
