

About me:

I'm Corin, 22, studying Electronic Engineering. I like long walks on the beach, tunnels, board games, and love animals. I'm beautiful, and can do sick circus tricks with up to one of my eyes closed, so you should choose me.

As VP Activities, I want to:

- Give societies freedom and not interfere unnecessarily.
- Extend SUSU volunteer cards to active members of charity/volunteering societies.
- Try to recognise non-SUSU volunteers better and help them promote themselves.
- Provide fair funding and guidance on how to apply for funding.
- Talk to and attend events from societies to try and understand as many people's issues as possible.
- Provide accessibility support to societies.
- Get rid of the 50p box office fee for joining societies.\*
- Reply to emails, facebook messages, crushampton comments...
- End climate change.\*
- Advertise society events and try to help societies get more members.
- Nuffield Theatre is being refurbished from April, so try to keep society spaces and performance spaces available for use by students.\*
- Protect the Highfield and NOCS ducks.
- Ideally find more society storage space, but not sure how feasible this is.\*
- Hold open mic nights around freshers' period for people to show off talent.
- Open the Boldrewood Tunnel to transport people safely between Highfield and Boldrewood. (more info here: <https://boldrewoodtunnelsoc.com/> )\*
- Make it easier for people to stay as SUSU members and take part in societies after they've graduated.\*
- Invest in the SUSU website and possibly try to get current ECS students involved, because it's one of the main ways people interact with SUSU. Although I'm aware that there are many problems and I'm not sure how feasible this is.\*
- Add a volunteering section to the website to make opportunities easier to find.
- Try to remove bureaucracy from processes to make them quicker.\*

\*These will be difficult to implement.

Why I'm the best:

- I've been on 9 different committees, currently 7.
- I spend most of my free time doing society activities or volunteering.
- I'm currently a senator for SUSU, which means I have to hold the current Sabbatical officers to account if they're not doing what they promised.
- I was SUSU Clubs & Societies Officer 2018-19.
- I want to maximise efficiency and happiness.
- I will do cool circus things if I win.
- I can spell necessary.
