

	What is the idea?	What do you hope to achieve/ how will you achieve it? make vague+ happier	Who will you be working with? Change names	When do you expect to be finished (term)?
Increase student Engagement and Society Promotion	Society Showcase	Allowing one or multiple societies to book a space on the red brick atleast weekly could allow them to showcase what they have to offer. It will allow for a more interactive society display where societies can effectively display their aims. I will create equal opportunities for all societies to do this in a similar way to the SUSU society Instagram takeovers. This will give societies greater visibility and hopefully increase the number of students joining and engaging with societies throughout the year. If successful, we can expand this so that societies can showcase themselves across different sites, for example WSA, Halls, Avenue, and, NOCs.	Activities Team, VP Sports, Facilities	January Launch
	Society Notice Boards and Screens	After the Stags refurb, we want to get a notice board where societies can post their big events or anything that involves ticket sales. This is more sustainable as it would stop the use of any leaflets but will be in view of anyone that will enter the stags. Hopefully this should help to publicise any society events and boost ticket sales. Additionally i want to build on what Ella had started with the use of digital screens- I'd like the use of multiple screens across SUSU and not just in the plant pot; this will include a screen in the bridge, concourse, and redbrick. I will liase with Marketing to trial this in the plant pot for first semester and if successful branch it out to the rest of SUSU Both methods can also promo other SUSU incentives such as Give it a Go, Varsity, etc.	Social Enterprise, Head of Activities, Marcomms	Autumn Term.
	Student-led Campaigns	There are various campaigns throughout the year including, but not limited to, Black History Month, Disability Awareness Month, Women's History Month, LGBTQ+ History Month/Pride Month, etc. My main goal for these months is to ensure that relevant societies/students have their say in what events are ran throughout the four weeks. I want to ensure that these campaigns are heavily student-led so i will contact relevant societies right at the start of the campaign planning and see if any want to be involved and have their own ideas put into action. Hopefully this will build stronger SUSU-Society relationships and give societies the freedom to run their own events with help from SUSU.	Activities Team, VP Welfare	Relevant Months
	Postgraduate and WSA Society Inclusion	I have started research on historically PG-dominated societies and I am looking to gain feedback on how to increase participation for PGR and PGT students. I am starting directly with feedback from students already in societies, and to see what gave them the appeal to join societies. This will allow me to better market societies to PG students. I am also researching other universities' incentives and seeing if i can adapt any of these to increase participation at our university. I have started a WSA networking session, which hopefully will allow societies to branch out up to WSA, or will allow WSA students to form their own societies.	Representation team, Activities Team.	Summer term
Society Support	Booking System	At the moment, booking university space for a singular event (separate to block bookings) can be a nightmare of having to go through various people. Although SUSU have streamlined this via subbookings@soton.ac.uk, I think an online booking system will still be more effective for societies to independently request their own space via an online booking system. I am now a part of a project group to create an events management system with a new platform. This platform will allow any student to book a space within SUSU and can also book tech/catering packages and relieve a cost straight away for better event management.	SLT, Facilities, Activities Team	Summer term
	Training (WIDE)	I will be working with the activities team to improve the WIDE training. As it stands, the WIDE training feels like an encyclopedia of knowledge that isn't particularly engaging and very "tick-box" style. WIDE training is extremely important to ensure societies meet SUSU's welfare, inclusion, diversity, and equality expectations. What we would like to do is provide in person/online leadership training programmes that include all aspects of WIDE as well as other aspects such as presidents/treasuring programmes, first aid training, marketing, event, and consent training. There will be some training that is made compulsory (WIDE, Presidents, Treasurers, Risk Assessment) and societies that do not attend/complete this training will face sanctions.	Activities Team, VP Welfare	Summer term
	Society Accreditation System	I will create a levelled accreditation system with a set criteria for societies to follow to make them all better functioning as a society. There will be approximately 20 points on the criteria for societies to follow, and a set amount of points will allocate each society to a specific level. Each level will have certain rewards behind it, including but not limited to, priority at bunfights, access to campaigns, priority in block bookings, etc. New societies will be supported by being given a "new affiliation" accreditation, which gives them access to top rewards for two years while they set up their society. Still need to approve with Hayley	Activities Team, VP Sports, SLT	Summer term
	One-to-ones with committees/Presidents	I will attempt to have a one-to-one with each society president (and committee if they want) in both semesters. This will allow me to better understand all of their goals throughout the year and give societies the opportunity to ask me and SUSU exactly what they need to be better supported. I have already created a spreadsheet to keep track of who i have/haven't contacted. I will also attempt to do society drop-ins where i physically attend a societies' event or one of their weekly meetings. This will hopefully build better/closer relationships with societies, the sabbatical officers, and SUSU. Within these meetings, i can also ensure that all society presidents know the grant round process and what makes a good application.	Sabbatical Officers, Society Committees	Summer Term
	Fundraising Support	There are many fundraising societies within the university, but various other societies also enjoy throwing a fundraiser for causes close to their hearts. My experience as RAG president means that I am well equipped to advise and help all societies in any of their fundraising endeavours. My aim is to host fundraising workshops and create/update fundraising guides so that all societies can follow this to host events and gain huge profits. Additionally there are various legal requirements in regards to fundraising as SUSU is a charity, and i will make these much more known within Clubs/Socs.	Activities team, Fundraising societies	Ongoing
Other Projects	AGM Democracy and Conduct	As it stands, some societies do not democratically elect their committee and just pick and choose who gets to be on committee. Additionally, there is a currently problem where people running for a committee position will bring along their friends (who are not members of the society) along to the AGM to get them to vote for them, which gives an unrepresentative view of the society's opinion. With a new system, there will be a new voting system whereby only society members can vote in AGM elections along with a more democratic method of electing new committee members stressing to clubs and and socs that it has to be through this system. I will also ensure that committees are conducting their AGMs in the correct manner; This includes voting for a new committee, presenting their financial records for the year, reviewing their constitution, and present any disciplinary outcomes if any have occurred throughout the year.	Activities team, SLT, Representation	Autumn term
	Nuffield/SJM/JH Gallery Building Utilisation	Nuffield Theatre could be a really good space for many performing arts societies to hold shows and performances. Unfortunately, the building needs a mass renovation, so I will be pushing for this to be a top priority for the university to give these societies a better university experience. Additionally the new SJM building in Guildhall Square has given us more space that can potentially be used after 5pm, including various dance studios for PA societies. Across the road from the SJM building is the gallery which is underrepresented/unknown amongst students, but has the potential to be a really nice safe/warm space for students. I aim to make this more known to stuents in Mayflower Halls, and those that use both the SJM and NOCs buildings. Within the JH Gallery, i will want to approach the University Team to see if i can set up an initiative for student exhibitions.	Sabbatical Officers, University Staff Members/Student Engagement Team, Activities Team	Summer term
	Work with the Student Engagement Team	The University's Student Engagement Team holds various events throughout the year. I would like to work with this team to encourage student and society participation where relevant. An example of this would be the festive lights switch on. They also are very keen to join in on liberation months, so i would like to help facilitate the involvement of student voice into these events so they are events that are run with actual student opinion.	Student Engagement Team, Activities Team, Sabbatical Officers	Ongoing
	Society Networking	There are many societies that can essentially be "grouped" together, for example volunteering societies, performing arts, enterprise, etc. My aim is to create networks for these groups to be able to effectively communicate with each other and ask for advice/opinions from other students that have a similar extra-curricular backgrounds. We can also offer incentives for these mixers such as marketing or events training with a social aspect after. I think this will be a brilliant opportunity to create a bigger sense of community within the societies at SUSU.	Activities Team, VP Sport	Autumn term
