	Risk Assessme	nt		
Risk Assessment for the activity of	Baseball and Softball Generic Risk Assessment		Date	18/09/2025
Are you a sports club or society?	Sports Club	Assessor	Paul E	dgson (President)
President/Captain Name/2 nd Committee Member	Ben Howe (Treasurer)	Signed off	SUSU	USE ONLY
Risk Assessment Information (What is this risk assessment for? Please provide a summary of the activity or event, including all relevant information)	This risk assessment is for the day-to-day oper including training sessions, games (both home engages in a variety of activities that require convell-being of all participants. Training Sessions: These occur multiple time exercises, drills, and practice games using club Games: The club competes in matches against and away. Risks include travel-related incidents Social Events: The club organises various socuniversity premises, present risks related to all	and away), and social onsideration of potentials a week at designated and personal equipment other university teams.	events. The call risks to enside facilities and entires and externations, whether	lub regularly ure the safety and involve physical I clubs, both home held on or off

PART A			(2)	D: 1			(2)	D ' 1			
(1) Risk identific						essment	(3) Risk management				
Hazard	Potential	Who might be	Inh	eren	t		Res	idua	<u>ll</u>	Further controls (use	
	Consequences	harmed (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)	
General Consideration	ons (including group meetings)									
Slips, trips and falls	Soft tissue injury e.g., sprain, bruising. Potential broken ankle or other breaks i.e. wrists etc. Links directly to weather and ground surfaces.	All participants and organisers/staff and spectators	2	3	6	Check ground conditions for holes, lumps, and other obstacles.	1	3	3	If the injury is serious and participant in a lot of pain of discomfort, seek medical attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.	

PART A											
(1) Risk identi	fication		(2) Risk assessment			essment				nagement	
Hazard	Potential Consequences	Who might be harmed (user; those nearby; those in the vicinity; members of the public)		lmpact name	Score	Control measures (use the risk hierarchy)	Res	Impact subject	Score	Further controls (use the risk hierarchy)	
Fire	Smoke inhalation, burns and more severe. Risk of extreme harm.	All participants and organisers/staff and spectators	1	5	5	Those leading the session must ensure they are aware of and fully understand the venue or locations fire procedures. Those leading must make sure that all exit routes are clearly highlighted and report any issues immediately to the venue. Highlight to all the participants the nearest emergency exit routes at the start of a session, and the importance of leaving calmly in case of an emergency. Consider accessibility requirements	1	4	4	In case of an emergency, please pull nearest fire alarm and ensure all participants leave the venue calmly and safely. Once in a safe position to do so, call the emergency services on 999. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.	

PART A											
(1) Risk identific	ation		(2) Risk assessment				(3)	Risk	mar	ınagement	
Hazard	Potential	Who might be	Inh	eren	it			idua		Further controls (use	
	Consequences	harmed (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)	
Setting up/moving or chairs/tables/other objects in the area.	Bruising or broken bones from tripping over table and chairs.	Meeting organisers and attendees	2	3	6	Make stall operators aware of the potential risks, follow manual handling guidelines Ensure that at least 2 people carry tables. Setting up tables will be done by organisers. Work in teams when handling other large and bulky items. Request tools to support with move of heavy objects- SUSU Facilities/venue. E.g., hand truck, dolly, skates Make sure anyone with any pre-existing conditions isn't doing any unnecessary lifting and they are comfortable.	1	3	3	Seek assistance if in need of extra help from facilities staff/venue staff if needed Seek medical attention from SUSU Reception if in need Contact emergency services if needed All incidents are to be reported on the as soon as possible ensuring the duty manager/health and safety officer have been informed. Follow SUSU incident report policy	

PART A										
(1) Risk identif	fication		(2) Risk assessment					Risk	mar	nagement
Hazard	Potential	Who might be	Inh	eren	t		Res	idua	ıl	Further controls (use
	Consequences	harmed (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
Overcrowding	Physical injury	Event organisers and attendees	1	3	3	If large crowds form, barriers can be requested by SUSU facilities team (if available on the day) to assist with crowd management. Book during quieter times when less activities taking place on Redbrick/book all available space Inform other bookings on the Redbrick/in the area of the event	1	3	3	Seek medical attention if problem arises With support from a SUSU Activities coordinator Inform UoS security team of the event (– on campus 3311, off campus 02380 593311. unisecurity@soton.ac.uk) and liaise with them on need for security teams on the day Security team may inform police of the event if required (e.g. marches)

Activity Consideration	ons									
Equipment										

Using equipment - nets, bases, tees, and pitching machine etc.	Cut/abrasion/ bruising from sharp edges. Is the equipment safe to be used?	All participants and bystanders.	2	2	4	Check all equipment is safe to use. Using equipment as instructed by manufacturer. Those leading the session to	1	1	2	Via considering the control measures and making sure those are adhered to, the assessor should be able to reduce the likelihood and impact of anyone getting injured by the equipment.
						remain vigilant to ensure participants are using the equipment as demonstrated.				Seek medical attention if problem arises Is there a qualified first
						Equipment such as the pitching machine will only be controlled by committee members & coaches. Demonstrations will be given on how to use equipment safely				aider in attendance at the session? Do session organisers know the location of a first aid kit/ who the nearest first aider is? Any incidents need to be reported as soon as possible
						Any members nearby or using the pitching machine nust wear PPE – helmets, protective masks etc.				ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.
Setting up the equipment – nets, bases, tees, and pitching machine etc.	Various forms of injuries up to and including possible sprains and breakages	All participants and organisers/staff.	2	3	6	Large or heavy equipment to be carried by 2 or more people. Request tools to aid with the moving of heavy objects – SUSU facilities/venue e.g., hand truck, dolly, skates etc.	1	2	3	If the injury is serious and participant in a lot of pain or discomfort, seek medical attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been

PART A										
(1) Risk identifi	cation		(2)	Risk	ass	essment	(3)	Risk	mar	nagement
Hazard	Potential	Who might be	Inh	eren	it			sidua		Further controls (use
	Consequences	harmed (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
						Complex equipment that requires assembling ie. Pitching machine, nets, bases will only be done by committee, or members who are being supervised by a committee member. Any equipment not in use that is not fixed should be removed from the activity area.				informed. Follow SUSU incident report policy.
Batting										
Being hit by pitch	Possible injury to batter	Members	2	2	4	Batters must wear PPE (helmets) when on the field in live play. Players are taught to focus on	1	2	2	Extra PPE such as arm guards, face guards etc are available should the player wish.
						the ball to aid reading of direction, maximizing time to dodge a ball.				

(1) Risk identif	ication		(2)	Risk	ass	essment	(3)	Risk	mar	nagement
Hazard	Potential Consequences	Who might be harmed (user; those nearby; those in the vicinity; members of the public)	Inh	Impact		Control measures (use the risk hierarchy)		mpact		Further controls (use the risk hierarchy)
Hit by own ball	Possible injuries to any part of batter's body if hit.	Members	2	2	4	Batters must wear PPE when on the field in live play. Players are taught to how to	1	2	2	Extra PPE such as arm guards, face guards etc are available should the play
						hit before facing live pitching to minimize the risk of an incident occurring.				
Hit by throw	Possible injuries to any part of batter's body if hit.	Members	2	1	2	Batters & base-runners must wear PPE when on the field in live play. Catchers are taught to step to the side of the batter to create an open lane for throwing	2	1	2	Extra PPE such as arm guards, face guards etc are available should the player wish.
Fielding										
Hit by ball	Possible injuries to any part of fielder's body if hit.	Members	1	2	2	Fielders are taught to watch the ball, for the entire time play is live, this reduces the likelihood of impact with a ball.	1	2	2	We have softball NOCSAE approved protective face masks that can be requested by any member who would like extra safety

PART A										
(1) Risk identif			` '			essment				nagement
Hazard	Potential Consequences	Who might be harmed (user; those nearby; those in the vicinity; members of the public)		lmpact name	Score	Control measures (use the risk hierarchy)	Res	Impact subject	Score	Further controls (use the risk hierarchy)
Collision with another fielder	Possible injuries to any part of fielder's body.	Members	2	1	2	Players are taught the superiority of positions and are encouraged to 'call' for a ball to alert all other players to their intention to catch the ball. In the beginning stages, we will have more experienced players demonstrate the etiquette and ensure members know the order of priority before being put in live fielding.	2	1	2	-
Collision with a runner	Possible injuries to any part of fielder's body	Members	1	1	1	Fielders are taught to avoid the running line when fielding the ball unless unavoidable. In which case they are taught to give right of way to the runner.	1	1	1	-

PART A (1) Risk identi	fication		(2)	Risk	ass	essment	(3)	Risk	mar	nagement

	assessment. This includes:	president to	committee		
	· Trips and Tours	ensure	meeting on		
	 Fundraising events e.g. Bake Sales 	completion.	freshers		
	(including cash handling)		week.		

	External Speaker Events		Committee members will be given their respective tasks and a risk assessment will be expected 3 weeks before any such event is scheduled.			
2	Any new equipment bought not covered by this risk assessment will be assessed and this document will be updated in accord with the guidelines.	Relevant committee members – president to ensure complete.	Ideally before any such equipment is purchased, but definitely before its used.			
3	All training sessions will require at least one member who has undergone first aid training in order to happen. Currently our welfare officer and our softball captain have taken this training,	Any relevant committee member - the president is ultimately responsible to ensure this is met.	The first committee meeting on freshers week.

Assessment Guidance

1. Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	1
2. Substitute	Replace the hazard with one less hazardous	If not possible then explain why	2
3. Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	3
4. Admin controls	Examples: training, supervision, signage		4
5. Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual	5

Risk process

- 1. Identify the impact and likelihood using the tables above.
- 2. Identify the risk rating by multiplying the Impact by the likelihood using the coloured matrix.
- 3. If the risk is amber or red identify control measures to reduce the risk to as low as is reasonably practicable.
- 4. If the residual risk is green, additional controls are not necessary.
- If the residual risk is amber the activity can continue but you must identify and implement further controls to reduce the risk to as low as reasonably practicable.
- If the residual risk is red <u>do not continue with the activity</u> until additional controls have been implemented and the risk is reduced.
- 7. Control measures should follow the risk hierarchy, where appropriate as per the pyramid above.
- 8. The cost of implementing control measures can be taken into account but should be proportional to the risk i.e. a control to reduce low risk may not need to be carried out if the cost is high but a control to manage high risk means that even at high cost the control would be necessary.

Imp	act	Health & Safety
1	Trivial -	Very minor injuries e.g. slight
	insignificant	bruising
2	Minor	Injuries or illness e.g. small cut or abrasion which require basic first aid treatment even in selfadministered.
3	Moderate	Injuries or illness e.g. strain or sprain requiring first aid or medical support.
4	Major	Injuries or illness e.g. broken bone requiring medical support >24 hours and time off work >4 weeks.
5	Severe - extremely significant	Fatality or multiple serious injuries or illness requiring hospital admission or significant time off work.

Likelihood	
1	Rare e.g. 1 in 100,000 chance or higher
2	Unlikely e.g. 1 in 10,000 chance or higher
3	Possible e.g. 1 in 1,000 chance or higher
4	Likely e.g. 1 in 100 chance or higher
5	Very Likely e.g. 1 in 10 chance or higher
