

Risk Assessment			
Risk Assessment for the activity of	SUMLC AGM Annual meeting with voting of new committee Above deck, 6pm	Date	10/04/2024
Unit/Faculty/Directorate /Club or Society	Southampton University Mixed Lacrosse Club	Assessor	Thomas Turner
Line Manager/Supervisor/President	Thomas Turner	Signed off	(Requires sign off by an Activities Coordinator)
Secondary Signature/ Vice President	<i>Lydia Lane</i>	Signature	

PART A										
(1) Risk identification			(2) Risk assessment				(3) Risk management			
Hazard	Potential Consequences	Who might be harmed (user; those nearby; those in the vicinity; members of the public)	Inherent			Control measures (use the risk hierarchy)	Residual			Further controls (use the risk hierarchy)
			Likelihood	Impact	Score		Likelihood	Impact	Score	

<p>Road traffic accident/ Walking between places while intoxicated – between Below Deck and Jesters</p>	<p>Vehicles collision -causing serious injury</p>	<p>Event organisers, event attendees, Members of the public</p>	<p>4</p>	<p>3</p>	<p>12</p>	<ul style="list-style-type: none"> • People also briefed about the journeys before the event starts. For example, the list of venues will be printed on the score card or shared via social media. Event organisers to make it clear that travel to and from each venue is attendees' own responsibility. • local venues known to UoS students chosen • Event organisers will be available to direct people between venues. • Attendees will be encouraged to identify a 'buddy', this will make it easier for people to stay together. They will be encouraged (but not expected) to look out for one another and check in throughout the night where possible. • Avoid large groups of people totally blocking the pavement or spilling in to the road. • Anybody in the group who is very drunk or appears unwell and therefore not safe should be encouraged 	<p>2</p>	<p>2</p>	<p>4</p>	<ul style="list-style-type: none"> • Venues chosen local and within a short distance from each other. • All incidents are to be reported on the as soon as possible ensuring the duty manager/health and safety officer have been informed. • Follow SUSU incident report policy

Costumes/Fancy Dress	Props/costumes causing injury or offence	Participants Members of the public	2	2	4	<ul style="list-style-type: none"> • Ask members to only bring small items and use sensibly. Members of the society are responsible for their own possessions and the use of them. • Choose a theme unlikely to cause offence. Any participant wearing items deemed offensive asked to remove these. • Society to follow and share with members Code of conduct/SUSU Expect Respect policy 	1	2	2	<ul style="list-style-type: none"> • SUSU Expect Respect policy to be followed • Committee WIDE training

PART B - Action Plan

Risk Assessment Action Plan

Part no.	Action to be taken, incl. Cost	By whom	Target date	Review date	Outcome at review date
	Organizers to ensure they have shared and read Expect respect policy with members	SUMLC Committee	9/04/24	10/04/23	Ensure that the committee (the organisers) are aware of the risks and the proposed plans of action.
	Route planned and shared in advance with attendees	<i>Thomas Turner</i>	9/04/24	10/04/23	Ensure that all attendees know where Above Deck is, along with knowing the route to Jesters
	Organizers to confirm each premise is licensed	<i>Thomas Turner</i>	9/04/24	10/04/23	Above Deck and Jesters are licensed premises
	All major incidents will be logged with SUSU the next day.	<i>Thomas Turner</i>	9/04/24	10/04/23	Ensure that if there are any incidents that SUSU are aware of them
	Weather check prior to event start	<i>Thomas Turner</i>	9/04/24	10/04/23	Ensure that the weather conditions are good to reduce risk of slipping or falling outside
	WIDE training completed by committee	SUMLC Committee	9/04/24	10/04/23	The relevant members of committee are aware of how to deal with incidents, behaviours, and concerns about student welfare

Assessment Guidance

1. Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	
2. Substitute	Replace the hazard with one less hazardous	If not possible then explain why	
3. Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	
4. Admin controls	Examples: training, supervision, signage		
5. Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual	

LIKELIHOOD	5	5	10	15	20	25
	4	4	8	12	16	20
	3	3	6	9	12	15
	2	2	4	6	8	10
	1	1	2	3	4	5
		1	2	3	4	5
		IMPACT				

Risk process

1. Identify the impact and likelihood using the tables above.
2. Identify the risk rating by multiplying the Impact by the likelihood using the coloured matrix.
3. If the risk is amber or red - identify control measures to reduce the risk to as low as is reasonably practicable.
4. If the residual risk is green, additional controls are not necessary.
5. If the residual risk is amber the activity can continue but you must identify and implement further controls to reduce the risk to as low as reasonably practicable.
6. If the residual risk is red do not continue with the activity until additional controls have been implemented and the risk is reduced.
7. Control measures should follow the risk hierarchy, where appropriate as per the pyramid above.
8. The cost of implementing control measures can be taken into account but should be proportional to the risk i.e. a control to reduce low risk may not need to be carried out if the cost is high but a control to manage high risk means that even at high cost the control would be necessary.

Impact		Health & Safety
1	Trivial - insignificant	Very minor injuries e.g. slight bruising
2	Minor	Injuries or illness e.g. small cut or abrasion which require basic first aid treatment even in self-administered.
3	Moderate	Injuries or illness e.g. strain or sprain requiring first aid or medical support.
4	Major	Injuries or illness e.g. broken bone requiring medical support >24 hours and time off work >4 weeks.
5	Severe - extremely significant	Fatality or multiple serious injuries or illness requiring hospital admission or significant time off work.

Likelihood	
1	Rare e.g. 1 in 100,000 chance or higher
2	Unlikely e.g. 1 in 10,000 chance or higher
3	Possible e.g. 1 in 1,000 chance or higher
4	Likely e.g. 1 in 100 chance or higher
5	Very Likely e.g. 1 in 10 chance or higher
