						are responsible for them.				safety officers have been informed.  Follow SUSU incident report policy.

### **General Considerations (including group meetings)**

In case of an emergency, please pull nearest fire alarm and ensure all participants leave the venue calmly and safely.

Once in a safe position to do so, call the emergency services on 999.

Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.

Slips, trips and falls	Physical injury	Event organisers and attendees	2	3	6	All boxes and equipment to be stored away from main meeting area, e.g. stored under tables  Any cables to be organised as best as possible  Cable ties/to be used if necessary  Floors to be kept clear and dry, and visual checks to be maintained throughout the meeting by organizers.  Extra vigilance will be paid to make sure that any spilled food products/objects are cleaned up quickly and efficiently in the area.  Report any trip hazards to facilities teams/venue staff asap. If cannot be removed mark off with hazard signs	1	3	3	If the injury is serious and participant in a lot of pain or discomfort, seek medical attention immediately.  Call 999 in an emergency.  Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed.  Follow SUSU incident report policy
Fire	Smoke inhalation, burns and more severe. Risk of extreme harm.	All participants and organisers/staff and spectators	1	5	5	Those leading the session must ensure they are aware of and fully understand the venue or locations fire procedures.  Those leading must make sure that all exit routes are clearly	1	4	4	In case of an emergency, please pull nearest fire alarm and ensure all participants leave the venue calmly and safely.

PART A										
(1) Risk identific	cation		(2)	Risk	asse	ssment	(3)	Risk	mai	nagement
Hazard	Potential	Who might be	Inh	eren	t	1		idua	ıl	Further controls (use
	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
						highlighted and report any issues immediately to the venue.  Highlight to all the participants the nearest emergency exit routes at the start of a session, and the importance of leaving calmly in case of an emergency.  Avoid build-up of debris in the activity area.				Once in a safe position to do so, call the emergency services on 999.  Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.
						Consider accessibility requirements				

Manual handling, including setting up of equipment. E.g. table and chairs.	Bruising or broken bones from tripping over table and chairs	Meeting organisers and attendees	2	3	6	Make those involved aware of the potential risks, follow manual handling guidelines.  Ensure that at least 2 people carry tables or other bulky items.  Setting up tables will be done by organisers.  Work in teams when handling other large and bulky items.  Request tools to support with move of heavy objects from SUSU Facilities/venue. E.g. hand truck, dolly, skates.  Make sure anyone with any preexisting conditions isn't doing any unnecessary lifting and they are comfortable.	1	3	3	Seek assistance if in need of extra help from facilities/venue staff.  Seek medical attention from SUSU Reception if in need.  All incidents are to be reported as soon as possible ensuring the duty manager/health and safety officer have been informed.  Follow SUSU incident report policy
Overcrowding / Inadequate Meeting Space	Physical injury, distress, exclusion	Event organisers and attendees	2	3	6	Do not push/shove  Committee check on room pre-booking, checks on space, lighting, access, tech available	1	3	3	Seek medical attention if problem arises  Liaise with SUSU reception/activities team and UoS Room Booking team on available spaces for meetings

										Students' Union
						Use ticketing system for regular sessions/meetings to avoid exceeding venue capacity				Postpone meetings where space cannot be found
						Ensure space meets needs of members e.g. considering location & accessibility of space (us AcessAble database to check accessibility information)				Welfare Officer to complete WIDE training  All incidents are to be reported on the as soon
						If an open activity, committee will consider all accessibility requirements and ensure that the area chosen is as accessible as possible.				as possible ensuring the duty manager/health and safety officer have been informed. Follow <u>SUSU</u> incident report policy
						Committee to consult members on needs and make reasonable adjustments where possible				
						Ensure that only an appropriate number of tickets are distributed to match the capacity for the bridge.				
Accessibility:  Entrances and Exits to the chosen area.	Participants may be prevented from attending the activity due to a lack of considerations of	Participants, committee	1	5	5	All areas chosen for activity will have their suitability checked.  If a closed activity for members,	1	5	5	In case of an emergency, call the emergency services on 999.
	accessibility needs and requirements.					members will be consulted to ensure there are no accessibility requirements.				If those with accessibility problems have not been able to exit, make the building manager and

## PART B - Action Plan

# **Risk Assessment Action Plan**

Part no.	Action to be taken, incl. Cost	By whom	Target date	Review date	Outcome at review date
1	Committee to read and share SUSU expect respect policy	Relevant committee members - president to ensure complete.	15/08/25	05/09/25	SUSU expect respect policy will be sent to all committee members to be read before the event
2	Committee to be refreshed on manual handling	Relevant committee members - president to ensure complete.	15/08/25	05/09/25	Manual handling training has been requested from SUSU will be sent to all committee members to be read before the event
3	Room booking and accessibility requirements to be discussed with SUSU activities	Amanda Blackwell, SUSU activities, relevant committee members	15/08/2025	05/09/25	Accessibility information for the bridge has been requested from SUSU
4	Ensure that the floor is suitable to dance on before class ie: no dents or trip hazards in the floor.	Relevant committee members will inspect the floor in the bridge	15/08/25	05/09/25	Floor in bridge has been inspected is in a suitable condition, this will be repeated just before the event occurs

5	Charity event form will be completed and approved by RAG Time to borrow/return cash machines will be arranged	Amanda Blackwell	15/08/25	05/09/25	This will be completed by the time of the event but could not reasonably be completed by the time this risk assessment must be submitted.
6	Ensure there is a first-aid kit that can be used for the event	Odette Lomas	15/08/25	05/09/25	SUSU has been contacted to sort and confirm the presence of a first aid kit at the event
7	Ensure electrical equipment is within PAT Date	Stan Witt	15/08/25	05/09/25	Equipment is checked and within date
8	Brief callers for Irish Dance and FolkSoc on the measures to prevent injuries, keep people from getting exhausted, where they can get a drink etc.	Stan Witt	15/08/25	05/09/25	Callers are briefed and have read relevant risks and mitigations from the risk assessment
signa	onsible committee member signatur stures/name) Stan Witt st 2 committee members need to sign Part		member	(second co Odette Lor	mmittee member signature/name) mas
	name: Stan Witt		Date: 29/08/2025	Print name Odette Loma	-,,

### **Assessment Guidance**

			Students' Union
1. Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	1
2. Substitute	Replace the hazard with one less hazardous	If not possible then explain why	2
3. Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	3
4. Admin controls	Examples: training, supervision, signage		4
5. Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual	5

#### Risk process

- 1. Identify the impact and likelihood using the tables above.
- 2. Identify the risk rating by multiplying the Impact by the likelihood using the coloured matrix.
- 3. If the risk is amber or red identify control measures to reduce the risk to as low as is reasonably practicable.
- 4. If the residual risk is green, additional controls are not necessary.
- If the residual risk is amber the activity can continue but you must identify and implement further controls to reduce the risk to as low as reasonably practicable.
- If the residual risk is red <u>do not continue with the activity</u> until additional controls have been implemented and the risk is reduced.
- 7. Control measures should follow the risk hierarchy, where appropriate as per the pyramid above.
- 8. The cost of implementing control measures can be taken into account but should be proportional to the risk i.e. a control to reduce low risk may not need to be carried out if the cost is high but a control to manage high risk means that even at high cost the control would be necessary.

Impa	act	Health & Safety
1	Trivial - insignificant	Very minor injuries e.g. slight bruising
2	Minor	Injuries or illness e.g. small cut or abrasion which require basic first aid treatment even in selfadministered.
3	Moderate	Injuries or illness e.g. strain or sprain requiring first aid or medical support.
4	Major	Injuries or illness e.g. broken bone requiring medical support >24 hours and time off work >4 weeks.
5	Severe - extremely significant	Fatality or multiple serious injuries or illness requiring hospital admission or significant time off work.

Likelihood	
1	Rare e.g. 1 in 100,000 chance or higher
2	Unlikely e.g. 1 in 10,000 chance or higher
3	Possible e.g. 1 in 1,000 chance or higher
4	Likely e.g. 1 in 100 chance or higher
5	Very Likely e.g. 1 in 10 chance or higher
