			<b>Likelihood</b>	<b>Impact</b>	<b>Score</b>		<b>Likelihood</b>	<b>Impact</b>	<b>Score</b>	
Garden equipment – trowels, forks	<ul style="list-style-type: none"> <li>Physical injury</li> </ul>	<ul style="list-style-type: none"> <li>Event attendees</li> </ul>	2	4	8	<ul style="list-style-type: none"> <li>Event will be led and overseen by an experienced gardening group</li> <li>Unsafe behaviour will result in the relevant equipment removed from the attendee</li> <li>Members/Committee to carry out first aid if necessary and only if qualified and confident to do so</li> <li>Contact emergency services as required 111/999</li> <li>Safety briefing will be given on dangers and use of equipment</li> <li>Contact the Student Hubs Designated Safeguarding Officer (DSO) if an incident occurs</li> </ul>	1	4	4	<ul style="list-style-type: none"> <li>Seek medical attention from SUSU Reception/venue staff if in need</li> <li>Contact facilities team via SUSU reception/venue staff</li> <li>Contact emergency services if needed</li> <li>All incidents are to be reported as soon as possible ensuring the duty manager/health and DSO have been informed.</li> </ul>

**PART B - Action Plan**

## Risk Assessment Action Plan

Part no.	Action to be taken, incl. Cost	By whom	Target date	Review date	Outcome at review date
	Recommend wearing of face masks when entering, leaving, and visiting the toilet by attendees and committee Packaged food only.	Committee members, staff	09/02/2023		
	Only allowing safe numbers of participants to the event	Committee members, staff	09/02/2023		
	With all snacks ensure there is nothing highly allergenic (such as nuts). Make sure anyone who shares snacks is aware of ingredients before they doing so.	All attendees	09/02/2023		
	Run a safety briefing for all event attendees	Committee members	09/02/2023

Date: 29/01/2023				Date: 29/01/2023	

## Assessment Guidance

1. Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	
2. Substitute	Replace the hazard with one less hazardous	If not possible then explain why	
3. Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	
4. Admin controls	Examples: training, supervision, signage		
5. Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual	

LIKELIHOOD	5	5	10	15	20	25
	4	4	8	12	16	20
	3	3	6	9	12	15
	2	2	4	6	8	10
	1	1	2	3	4	5
		1	2	3	4	5
		IMPACT				

### Risk process

1. Identify the impact and likelihood using the tables above.
2. Identify the risk rating by multiplying the Impact by the likelihood using the coloured matrix.
3. If the risk is amber or red – identify control measures to reduce the risk to as low as is reasonably practicable.
4. If the residual risk is green, additional controls are not necessary.
5. If the residual risk is amber the activity can continue but you must identify and implement further controls to reduce the risk to as low as reasonably practicable.
6. If the residual risk is red do not continue with the activity until additional controls have been implemented and the risk is reduced.
7. Control measures should follow the risk hierarchy, where appropriate as per the pyramid above.
8. The cost of implementing control measures can be taken into account but should be proportional to the risk i.e. a control to reduce low risk may not need to be carried out if the cost is high but a control to manage high risk means that even at high cost the control would be necessary.

Impact		Health & Safety
1	Trivial - insignificant	Very minor injuries e.g. slight bruising
2	Minor	Injuries or illness e.g. small cut or abrasion which require basic first aid treatment even in self-administered.
3	Moderate	Injuries or illness e.g. strain or sprain requiring first aid or medical support.
4	Major	Injuries or illness e.g. broken bone requiring medical support >24 hours and time off work >4 weeks.
5	Severe - extremely significant	Fatality or multiple serious injuries or illness requiring hospital admission or significant time off work.

Likelihood	
1	Rare e.g. 1 in 100,000 chance or higher
2	Unlikely e.g. 1 in 10,000 chance or higher
3	Possible e.g. 1 in 1,000 chance or higher
4	Likely e.g. 1 in 100 chance or higher
5	Very Likely e.g. 1 in 10 chance or higher
