<b>Description of event/activity</b>	Video Games & Esports Society (SVGE) will be hosting in-person and online events throughout the year. We have previously hosted events such as socials, meetings, pub crawls, and LAN tournaments. We have also hosted online activities such as casual gaming, watching livestreamed tournaments together, participating in university esports tournaments. These are activities we are planning to continue this year as the new committee.		

We have an inventory of the equipment we use such as: cables, merchandise, peripherals such as mice and keyboards. We also have gaming equipment which includes VR, Switch, Wii, XBOX and some games for them. We also own a laptop and PC.

Additionally, we have had some partnerships in the past that we are going to maintain. We work with National Student Esports (NSE) that are also partnered with Pringles, Pot Noodle, Monster Energy and more. They provide us resources and merchandise to promote at our stalls and events. We are also going to work with Riot Games to plan a Riot Play Club event in which there will be casual gaming, quizzes, and showmatches with players from our community.

A key activity we host are esports tournaments. Many players from our communities form teams to participate in National Student Esports (NSE) tournaments, National University Esports League (NUEL) tournaments, British University Esports Championships (BUEC) tournaments, and more. Our previous teams have been winners in these tournaments, and we regularly participate in them. We also collaborate with other university esports societies to host friendly, smaller tournaments with us. Most of these tournaments are played online, but when our teams reach the semi-finals and grand finals, we travel to play in-person LAN tournaments.

We have a Women & Non-binary (WNB) community within our society to promote inclusivity and participation in esports. These members of our society also participate in Women & Non-binary esports tournaments, and we also host social events for them.

We plan to book on-campus rooms such as lecture theatres, rooms with moveable chairs, computer rooms, The Stags, and The Cube for our events. We also plan to book external venues such as The Hobbit for social events as well as to travel to other universities and gaming related events. Last year, members of our community travelled in a group together

	to attend BLAST Premier 2024, a CS2 esports tournament played by professional players, in the Wembley Arena.
