General Considerations										

Slips, trips and falls	Physical injury	Event organisers and attendees	2	4	8	All boxes and equipment to be stored away from main meeting area, e.g. stored under tables.	1	3	3	If the injury is serious and participant in a lot of pain or discomfort, seek medical attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possible, ensuring duty manager/health and safety officers have been informed. Follow SUSU incident reporting guide
						Any cables to be organised as best as possible, e.g. cable ties to be used if necessary. Floors to be kept clear and dry, and visual checks to be maintained throughout the meeting by organisers. Extra vigilance will be paid to make sure that any spilled food products/objects are cleaned up quickly and efficiently in the area. Report any trip hazards to facilities teams/venue staff asap. If cannot be removed, mark off with hazard signs.				

Fire	Smoke inhalation, burns. Risk of extreme harm.	All participants and organisers, any staff and spectators	2	5	10	Those leading the session must ensure they are aware of and fully understand the venue or location's fire procedures. Those leading must make sure that all exit routes are clearly highlighted and report any issues immediately to the venue. Highlight to all the participants the nearest emergency exit routes at the start of a session, and the importance of leaving calmly in case of an emergency. Avoid build-up of debris in the activity area. Consider accessibility requirements.	1	5	5	In case of an emergency, please pull nearest fire alarm and ensure all participants leave the venue calmly and safely. Once in a safe position to do so, call the emergency services on 999. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident reporting guide

Assessment Guidance

• Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why
• Substitute	Replace the hazard with one less hazardous	If not possible then explain why
• Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well
• Admin controls	Examples: training, supervision, signage	
• Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual
