Assessment Guidance

• Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	
• Substitute	Replace the hazard with one less hazardous	If not possible then explain why	
• Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	
• Admin controls	Examples: training, supervision, signage		
• Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual
